

FY2010 Yokogawa Group Safety & Health Objectives

1. Observation of laws and regulations

Observe all safety and health (S&H) related laws and regulations

2. Maintenance of occupational safety and health management system (OSHMS)

(1) Through the OSHMS, make continual improvements in S&H activities

(2) With the aim of eliminating or lessening risks, conduct risk assessments at all companies in the Yokogawa Group

(3) Maintain S&H at its current level or improve it by carrying out OSHMS audits

3. Elimination or reduction of occupational accidents

4. Conduct of S&H activities

(1) Maintain and improve S&H

(2) Build awareness of the need for traffic safety

(3) Provide S&H training

(4) Conduct fire and evacuation drills

5. Disclosure of S&H information

Communicate openly with Group personnel and the local community about S&H activities and results
