

## Welcome to 4<sup>th</sup> European User Conference in Barcelona, September 23 - 26

We are delighted to invite you to attend the 4<sup>th</sup> **Yokogawa User Conference and Exhibition** to be held **at the Rey Juan Carlos Barcelona**. The conference will run from Tuesday evening September 23<sup>rd</sup> through to Friday afternoon September 26<sup>th</sup> 2008.

The steering committee of the 2008 conference is looking forward welcoming you to this venue, because it offers an attractive combination of facilities, comfort, access and cultural interests.

The theme chosen by Yokogawa and the steering committee reflects the new development in the backbone of VigilantPlant initiative, Centum VP, and the drive towards **"delivering the promise of operational excellence"**. The program will focus on; security, management, optimization;

- **Security in process plants, safety and alarm management**
- **Revamping control center's, continuity in human resources**
- **Optimizing process, APC, migration, OMS and OTS**
- **Goal orientated planning – BSC(balance score card)**

The steering committee invites you to share your experiences with other users and present a paper. The subject matter can be from one of the high profile areas or of course you may submit a paper on any subject which you consider being of interest to the other users and Yokogawa. Case histories and topics related to system applications and project implementation, as well as industry and technical achievements are most welcome.

Participation at the user conference has its advantages and benefits for you as a Yokogawa user. You will become more familiar with industry best practices, operational excellence and benchmarking. Challenging are ways to increase quality and efficiency, lowering operating costs throughout the plants life cycle. Network with other users, industry and business leaders, and of course with the Yokogawa experts. You will be invited to put forward in a user only session recommendations to influence the future direction of Yokogawa's development program in products and solutions.

This year's conference will be supported by a Technology Fair, with Centum VP taking central stage. Yokogawa will demonstrate a wide range of solutions, including integration with its high profile business partners.

We're proud to be sending you this invitation to join your peers, the steering committee and Yokogawa in Barcelona.
