

DPharp
FOR THE DIGITAL WORLD

Do you regard safety as an option?

In today's highly regulated production environment, compliance with the latest safety standards and regulations is mandatory. Plant safety and the safety of personnel are as important today as plant availability, throughput and increased profitability.

At Yokogawa we believe safety shouldn't be an option, it should be standard and at no additional cost. That's why our strategy is to continue to build the finest industrial automation & control solutions, while integrating the latest safety standards such as IEC61508 in their design.

EJX is the first pressure transmitter series to be designed and built in accordance with this safety philosophy and today it is delivered as standard with the TÜV seal of approval compliant with both IEC61508 and IEC61511.

DPharp EJX™

*Where you need DPharp EJX the most...
In your ESD applications.*

vigilantplant.®
The clear path to operational excellence

YOKOGAWA 

A measure of Yokogawa's innovation, foresight and commitment to the industry. In the new compact design, you will find everything you need and more. The Digital Evolution Continues.

Do you still regard safety as an option?

Whether or not EJX is installed in a standard process control loop or a Safety Instrument Function (SIF) it will deliver a lifetime of benefits, just one of which being high integrity process measurements validated by onboard safety diagnostic functions.

EJX can be deployed in SIL 2 safety functions in 1oo1, single mode or in SIL 3 safety functions in 1oo2, dual mode.

With EJX, you no longer have to sacrifice plant availability for plant safety. EJX allows you to maximize your plant's safe-availability while optimizing operational uptime.

Safety excellence suite

No?..... Neither do we!

A Yokogawa Commitment to Industry

vigilance.

What does Yokogawa **vigilance** mean to the future of your business? **Quality.** Through products that are built from the ground up and tested to the last hour, you're ensured continuous operation and more uptime. **Innovation.** Your business will benefit from new insights and capabilities, bringing true predictability to your process. **Foresight.** As the market changes, you'll have solutions that give you the continuity and flexibility to plan ahead and grow. Our partners know the difference. With Yokogawa, you can count on a lifetime of plant efficiency, from instrumentation to operation support. Let us be vigilant about your business.
