

Safety & Health Objectives

1. Observation of laws and regulations

Observe the laws and regulations relating safety and health (S&H)

2. Promotion of occupational safety and health management system (OSHMS)

- (1) Eliminate or lessen risks through risk assessment (RA).
- (2) Perform system audits to enhance OSHMS.

3. Conduct of S&H activities

- (1) Provide S&H education and training.
- (2) Maintain and improve employee health.
- (3) Promote traffic safety awareness.

4. Elimination or reduction in number of occupational accidents

5. Communication on S&H

Promote open communication with Group personnel and the local community by disclosing relevant S&H information.

- Each Group company should set its targets based on the above objectives.
- For the above items 2 through 4, each Group company should review its FY2008
- S&H activities and set quantitative targets for FY2009.
