NEW MODULAR CALIBRATOR / COMMUNICATOR WITH HART[®] INTERFACE FROM YOKOGAWA

Newnan, Georgia -Yokogawa Corporation of America introduces a powerful handheld instrument designed for commissioning, calibration and maintenance of field devices for process operations.

The YPC4000 Series modular calibrator/communicator with HART interface is a breakthrough instrument that delivers the versatility of a documenting modular calibrator and the convenience of HART communications in one handheld unit. Interchangeable sensor module options cover a wide range of pressure, temperature, current and voltage measurement and sourcing requirements. NIST traceability certificates are supplied for each module and base unit.

YPC supports all HART field devices at the universal and common practices command levels plus a large and growing list of device specific commands. Options include: 21CFR part 11 documenting for FDA electronic signature compliance; Device Management System software- a Microsoft[®] SQL-based software package; MET Laboratories certification for intrinsic safety to comply with CSAC22.2 no.1010.1-92, C22.2 no. 157, and UL913, 5th edition 2/21/97 for Class I, Div I, Groups A, B, C & D.

For more information contact Jim Brandtjen 770-254-0400x5437 or visit our website www.yokogawa.com/us/mi/ypcyhc.
