Yokogawa's Susan Lynch to Serve on the MCAA Board of Directors

Newnan, Georgia – Susan Lynch, General Manager for the Field Instruments Business Unit for Yokogawa Corporation of America, has been invited to serve on the Board of Directors for the Measurement Control and Automation Association. The MCAA, headquartered in Williamsburg, Virginia, is the trade association of leading companies who manufacture and distribute process controls, field measurement and analysis instrumentation, systems and software used in industrial process control and factory automation around the world. Her three-year term will begin during the Executive Forum on May 16, 2005 in Las Vegas, Nevada.

"I am honored to be asked, and believe this opportunity will provide me an opportunity to express the needs of a company like Yokogawa as well learn and promote the needs of other companies in our industry," said Lynch. "I am happy to accept the three-year tenure."

In her new role as Director, Lynch will serve both the interests of Yokogawa and the industry as a whole. She will be required to attend several board meetings each year, and participate in conference calls focusing on the development and improvement of member programs. Additionally, Lynch will be assigned a constituency of member companies with whom she will communicate regularly to ensure their needs and concerns are being addressed by the association.

"The participation of companies like Yokogawa Corporation of America is critical to the future strength of our association" said MCAA President Cynthia Ester.

Yokogawa Corporation of America, a leading manufacturer and supplier of industrial automation and control, test and measurement, information systems and industry support, is Yokogawa's North American operation.

Yokogawa Corporation of America consists of three businesses - Industrial Automation, Test & Measurement and Meters & Instruments. Yokogawa Corporation of America headquarters and factory is located in Newnan, Georgia (near Atlanta). Yokogawa Corporation of America also has major operations in Germantown, Maryland, Cold Spring, Texas, Dallas, Texas and Stafford, Texas.

About Yokogawa

Yokogawa's global network of 18 manufacturing facilities, 82 affiliate companies, and over 650 sales and engineering offices spans 28 countries. Since its founding in 1915, the US\$4 billion company has been engaged in cutting-edge research and innovation, securing more than 7,000 patents and registrations, including the world's first digital sensors for flow and pressure measurement. Industrial automation and control, test and measurement, information systems and industry support are the core businesses of Yokogawa.
