Yokogawa and ENGlobal Form Strategic Alliance

Newnan, Georgia – Yokogawa Corporation of America, a leading provider of automation and control equipment, and ENGlobal Systems, Inc. ("ESI"), a subsidiary of ENGlobal Corporation (AMEX: ENG), announced the formation of an alliance, by which the two businesses will jointly develop and market their services to the energy industry.

Under the agreement, ENGlobal becomes strategic supplier of general engineering services to Yokogawa Corporation of America that includes instrumentation and electrical, mechanical, structural, and other engineering support services. In addition, ESI becomes a strategic supplier of Remote Instrument Enclosures (RIEs) for Yokogawa.

Yokogawa will lead the alliance in collaboration with management at ENGlobal's systems group. Terms of the agreement were not disclosed.

David Johnson, President and Chief Operating Officer of Yokogawa Corporation of America commented, "Yokogawa is extremely please to have the opportunity to work closely with ENGlobal. This initiative combines the competencies and skill sets of two highly experienced organizations for the clear benefit to all concerned – Yokogawa, ENGlobal and, most importantly, our customers."

"We are pleased to be working with Yokogawa and believe this alliance will bring real value to our clients, thus translating into long-term working relationships," said Michael L. Burrow, P.E., ENGlobal's President and Chief Executive Officer. "ENGlobal believes strongly in an alliance partnership strategy to give our clients a complete solution to meet their needs."

About ENGlobal Corporation

ENGlobal Corporation provides engineering services and systems principally to the petroleum refining, petrochemical, pipeline, production, and process industries throughout the United States and internationally. ENGlobal's multi-disciplinary engineering services group develops projects from the initial planning stage through detailed design, procurement, and construction management. The systems group develops, manufactures, installs, and services control and instrumentation systems utilized in various energy and process-related industries, and provides services and products that support the advanced automation and environmental technology fields. The Company, with its subsidiaries, now employs over 1,600 employees in 14 offices and occupies over 300,000 square feet of office and manufacturing space. In 2005 and 2004, the Company was named the #1 fastest growing engineering firm in the United States by ZweigWhite and was ranked #2 in 2003. Further information about the Company and its subsidiaries is available at www.ENGlobal.com.
