Release #: 827

## **Yokogawa Enhances Xviewer - Digital Oscilloscope Viewer & Analysis Software**

Newnan, Georgia -Yokogawa has released Xviewer software version 1.30. Key enhancements added in this major Xviewer upgrade include:

- Xreport: This new function takes all the information displayed in Xviewer (main and zoom waveforms, waveform measurement results, cursors, math channels, FFT, X-Y displays, etc.) and easily turns it into a customized report. In addition to displaying the waveform data listed above, waveform annotations can be added. Xreport also includes the ability to add a logo (corporate, group, project, etc.), header & footer information and general comments to the displayed data.
- Complete support for the recently introduced SL1400 ScopeCorder digital and paper oscillographic recorder. Includes remote control of the SL1400, direct downloading of acquisition memory into Xviewer, and transferring of saved data between the SL1400 and a PC.
- The zero level of all displayed waveforms are shown

Other Xviewer capabilities include:

- Enables the remote control, acquisition memory downloading and saved data transfer of all current-generation Yokogawa DL and SL-series digital oscilloscopes and ScopeCorders.
- Calculate 26 waveform parameters and display horizontal and/or vertical cursors for each displayed waveform.
- Create up to 10 user-defined math waveforms. Math functions include: basic arithmetic, trigonometric functions, FFT calculations using up to 2 million data points, digital waveform filtering (low pass, band pass and high pass), pulse width calculations and many more. (Requires Xviewer - Math Edition)

- Individually or collectively display the main and/or zoomed portions of up to 2,048 History Memory waveforms.
- Annotate waveforms for additional description and clarity
- Save the Xviewer display (screen shot) in a number of formats for importing into other applications

The price for a single license of the standard Xviewer software is \$420. A single license of the math edition of the software is \$660. Multiple licenses are sold at discounted rates.

Please contact Yokogawa for additional details. [www.yokogawa.com/tm/701992](http://www.yokogawa.com/tm/701992)

### **About Yokogawa Corporation of America**

Yokogawa Corporation of America is the North American unit of \$4 billion Yokogawa Electric Corporation, a global leader in the manufacture and supply of instrumentation, process control, and automation solutions. Headquartered in Newnan, Georgia, Yokogawa Corporation of America serves a diverse customer base with market-leading products including analyzers, flowmeters, transmitters, controllers, recorders, data acquisition products, meters, instruments, distributed control systems, and more.

For more information about Yokogawa Corporation of America, visit [www.yokogawa.com/us/](http://www.yokogawa.com/us/), call 770-254-0400, or toll-free at 800-258-2552, or e-mail [info@us.yokogawa.com](mailto:info@us.yokogawa.com).
