Byrum Named Vice President of Yokogawa Test & Measurement

Sugar Land, TX -- Yokogawa Corporation of America announced today that Brad Byrum has been named Vice President of Test and Measurement Division effective November 2007.

"Brad's vast experience with Yokogawa has given him a unique global perspective on our operations." said David Johnson, President & CEO. "He brings more than 17 years of experience to the job and has held positions within Yokogawa as an application engineer, an IA Field Sales Rep, the C & C Product Manager, the Test & Measurement Marketing Manager, and the Test & Measurement Business Unit Manager, among others. Brad's ability to provide the best solutions for our customers has been a key element to our success in the field of Test & Measurement."

Byrum will be responsible for all marketing, product management and business operations in North America for the Test and Measurement Division. His new role is a continuation of his current responsibilities plus the addition of some global duties within the Test and Measurement Division and reports to David Johnson.

About Yokogawa Corporation of America

Yokogawa's global network of 18 manufacturing facilities, 84 companies, and over 650 sales and engineering offices spans 33 countries. Since its founding in 1915, the US\$4 billion company has been engaged in cutting-edge research and innovation, securing more than 7,000 patents and registrations, including the world's first digital sensors for flow and pressure measurement. Industrial automation and control, test and measurement, information systems and industry support are the core businesses of Yokogawa.
