Yokogawa Meters and Instruments Releases First of New Meter Series for Extreme Environmental Conditions

Yokogawa Corporation of America is pleased to announce the release of the first in a series of new meters, the Dura Meter Series. The first new meter, an elapsed time meter, combines a time meter assembly with a die cast aluminum NEMA 4X housing.

The Dura Meter series is designed for severe environmental conditions across multiple industries such as oil & gas, chemical, power (electric utilities), water treatment and food processing. The Dura meter series meets ANSI Specification C39.1, is water and dust resistant, and is UL rated.

Standard options include horizontal vs. vertical mounting, hours vs. minutes, reset vs. non-reset and voltage and frequency rating. Additional options include electrical connection, customer configuration, stainless steel tag, and epoxy resin or polyurethane-epoxy combination paint.

Dura Elapsed Time Meters are available from Yokogawa distributors and representatives at a suggested list price of \$255 for a base unit. For more information

on the Dura Elapsed Time Meters and metering and instrumentation products in general, visit www.yokogawa-usa.com or contact us via email at meters-instr@us.yokogawa.com .
