YOKOGAWA

Mercury free declaration

Hereby we, Yokogawa Process Analysers (YPA) in Amersfoort, declare that, to the best of our knowledge, the material mercury is not intentionally added to the base materials and additives used in the manufacture of the following model of sensors and electrodes:

- Ph/ ORP (redox)
- SC (Conductivity contacting)
- ISC (Conductivity inductive)

Any contamination with mercury is unintentional, minimal and not relevant for environmental aspects.

Best Regards,

J. Aué
Quality Engineer

Amersfoort, 18th September 2007
