

Network + Certification Training Course 4003

Course Description

This course consists of lectures, demonstrations, reading assignments, practice tests and question and answer sessions designed to prepare the student to pass the Comptia Network + exam.

Duration

7 days

This course is broken into three portions:

- The first portion consists of a three day introduction to concepts and materials.
- The second section consists of the student completing the assigned reading and practice testing. This portion is to be completed outside the classroom. Estimated time: 4-6 weeks.
- The third portion consists of 4 days of practice tests and discussion with the fifth day culminating in the taking of the actual Network + Exam at an official testing center.

Objectives/Outcomes

Upon completing this course, the learner will successfully complete the Network + Exam at an official testing center.

The specific objectives as stated by the Comptia organization can be downloaded from: <http://certification.comptia.org/resources/objectives.aspx>

Intended Audience

Any individual who desires to become Network + Certified

Course Prerequisites

None

Technical Requirements

- Basic Windows OS operation experience

Materials

Each learner will be provided with the appropriate course manual. Additional text books must be purchased by student.
